Presentation will include a
display from Ms Evans
X-15 Collection

February 15, 2025
11 AM Lecture

Richard L. Martindell
USAF Lt Col (Ret)

One of the great adventures of aerospace history was the development and operation of the X-15 experimental aircraft. This gave rise to another adventure which was the exciting journey of writing a book about the entire project. We will have the privilege of hearing from the author of that book. We will hear the inside story of the entire project, the ordeals it entailed, and the corollary ordeal of documentation of the entire saga. Please join us for this wonderful pictorial account of the X-15 and the documentation of its story.
